

Team Information Report

Clicking on [Team Info](#) on the Teamlink menu bar will access the Team Information Report.

This report shows the team information by division and category, and can be filtered further by competition and/or group as well. Please note that the competition and group filtering is based on the currently entered game schedules. This means that a given competition or group may not appear in the drop down lists initially but once a game is setup within that, those options will appear in the list. This report shows information related to the teams, including team name, home game day of week, home game time, home game location, coach's name & phone number, manager name & phone and jersey colours.

Team Information Sheet for 2013-2014 Season

Division* Category* Competition Group

Some information about teams is considered private information so that information will only show if authorized to view that information and logged into Teamlink.

All of this team information is optionally entered into Teamlink. Only information that has been entered into Teamlink for the current season will show on this report.

Team contact information is supplied by the Team Manager to the Managing Director for entry into Teamlink prior to the start of each season. Please advise your League Manager if any team information has changed, is incorrect or is not listed.
