

Management – Players

Please note that all data used in the management section is used for reporting purposes amongst other important functions. Any accidental deletion of data should be promptly reported to the Web Master as records will lose its relationship with other records.

Please use delete 'sparingly'. Once the data has been used in a game, it will begin its complex network of relationships that ties all the game information together.

To view/edit an entry

Please scroll down the available list and select an entry.

To enter new data

Please click on 'new'

To reset data to its original contents before saving

Please click on 'reset'

To save any changes

Please click on 'save changes'

The screenshot shows a web interface for managing players. At the top, there are radio buttons for 'Filter By' with options: 'by ABC' (selected), 'by Name Filtering', 'by Association', 'by Division', and 'by Team'. Below this is a sub-section with 'Filter By' and radio buttons for 'Last Name' (selected) and 'First Name'. Underneath is a grid of letters from A to Z arranged in two rows: A-M in the first row and O-Z in the second row. Below the grid is a text instruction: 'Select Team/Current Players to Edit or Delete, or click on New to Add a new entry'. To the left of this instruction is a box containing '-- Select Current Users --' and 'No Selection Available'. To the right is a button labeled 'New' with a red border. At the bottom, there are two text input fields labeled 'First Name' and 'Last Name'.

You may narrow down the player search by doing the following:

- ABC filtering of Last Name or First Name;
- Name Search of Last Name or First Name (with Begins with or Containing the entered search parameter);
- Selecting an Association;
- Selecting a Division; or
- Selecting a Team...

Please click the appropriate button selection for the method you wish to use to search for players.

Each player is identified by a unique ID regardless of his/her affiliations. Please note that changing the player's affiliations (team, affiliate team, association, division) will not remove existing player game information (games played and penalties). These are identified by each Player's unique ID.

Please enter all information requested.

For player's who are affiliate players of another team, please place a check mark on 'Affiliate' and select the Affiliate Team from the list.
